SUMMARY

Dedicated Senior Frontend Engineer with over 9 years of experience in crafting dynamic, user-centric web applications. Highly skilled in modern JavaScript frameworks and a strong advocate for responsive and intuitive design. Proven track record of collaborating effectively with cross-functional teams to deliver scalable solutions that enhance user engagement and elevate digital experiences.

SKILLS & QUALIFICATIONS

React.js, Vue.js, Angular, Svelte, TypeScript, JavaScript (ES6+), CSS3 (SASS/LESS), Tailwind CSS, Styled Components, Bootstrap, Redux, MobX, Zustand, Vuex, Webpack, Rollup, Vite, Lighthouse Audits, Jest, Cypress, Playwright, Mocha, Responsive Design, Performance Optimization, UI/UX Collaboration, Cross-Functional Teamwork, Accessibility Standards, Agile Methodologies

PROFESSIONAL EXPERIENCE

Senior Frontend Engineer | Tech Innovators Inc | San Francisco, CA | Jan 2018 – Present

- Spearheaded the design and implementation of over 12 user-centric web applications, enhancing user satisfaction by 30%.
- Collaborated closely with UI/UX designers and back-end developers to ensure seamless integration and optimal functionality across multiple devices.
- Optimized web application performance, achieving a 40% reduction in load times through effective performance auditing and code optimization using Lighthouse.
- Drove agile methodologies in the team to streamline development processes, resulting in a 25% increase in project delivery speed.

Frontend Developer | Creative Solutions Ltd. | San Francisco, CA | Jun 2015 – Dec 2017

- Developed and maintained responsive web applications using React.js and Vue.js, increasing mobile user engagement by 50%.
- Implemented state management solutions with Redux and Vuex that improved application performance and data consistency.
- Conducted thorough application testing and debugging using Jest and Cypress, reducing bug reports by 35%.
- Participated in product planning sessions, translating user requirements into technical specifications for development.

TECHNICAL PROJECT EXPERIENCE

E-Commerce Platform Redesign

- Led the frontend development of a major e-commerce platform redesign using React.js, resulting in a 20% increase in sales conversion rates.
- Integrated AI-driven recommendation features that personalized user experiences, boosting engagement by 40%.
- Collaborated with cross-functional teams to ensure the new design was implemented seamlessly across all devices.

Real-Time Collaboration Tool

- Architected a real-time collaboration tool with a focus on performance and user experience, reducing latency by 30%.
- Worked with UX designers to create an intuitive interface that facilitated user workflows and increased adoption rates.
- Deployed a CI/CD pipeline that improved deployment frequency by 50% and streamlined testing processes.

Accessibility Compliance Initiative

- Led a project aimed at improving accessibility standards across all applications, enhancing usability for diverse user groups.
- Conducted extensive audits and implemented best practices, achieving 95% compliance with WCAG 2.1 guidelines.
- Trained team members on accessibility features and tools, fostering a culture of inclusivity in product development.

Certification

Certified JavaScript Developer | React.js Certification
Google Mobile Web Specialist

EDUCATION

Bachelor of Science in Computer Science | GPA: 3.5 | University of California, San Diego
